Parcial 2 Laboratori VC

Fluorescent Cell

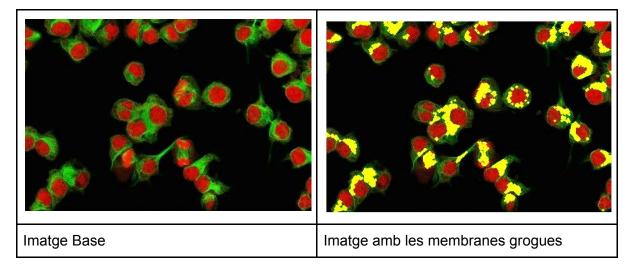

```
I = imread('flourescent_cell_780x520.jpg');
[f,c] = size(I);

BW = rgb2gray(I);

BW = BW > 80;
BW = imopen(BW, strel('diamond',2));

Edges = uint8(BW*255);
Zeros = zeros(f,c/3);
EdgesRGB = cat(3,Edges, Edges, Zeros);

I = I + EdgesRGB;
figure; imshow(I);
Codi
```

Per aquesta imatge aprofitem que els nuclis vermells son més foscos y tractem de binaritzar deixant els nuclis com a background.

Citocell

```
I = imread('citocells.bmp');
[f,c] = size(I);

%Trobar els nuclis

BW = I > 121;
BW = imopen(BW, strel('diamond',4));
B = not(BW);
Edges = uint8(B*255);
Zeros = zeros(f,c);
EdgesRGB = cat(3,Edges, Zeros, Zeros);
INucli = I + EdgesRGB;

Codi per trobar els nuclis (+ lectura)
```

```
%Trobar les membranes

I2 = I;

Mask = I > 200;

Mask = imopen(Mask, strel('disk', 1));

I2(Mask) = 0;

I2 = imopen(I2, strel('disk', 1));

[~, threshold] = edge(I2, 'sobel');

BW2 = edge(I, 'sobel', threshold * 0.22);

Edges2 = uint8(BW2*255);

Edges2(Mask) = 0;

Edges2 = imdilate(Edges2, strel('diamond', 1));

EdgesRGB2 = cat(3,Edges2, Edges2, Zeros);

IMembrana= I + EdgesRGB2;

Codi per trobar les membranes
```
